

TOWN OF LUNENBURG

TOLRFQ013 – Road Salt Trucking

ADDENDUM #1 – September 18th 2024

1. Is the estimated 1000MT delivered prior to the winter season or throughout the winter?

The estimated 1,000 tonnes/season is to be delivered throughout the season on as as-needed basis.

2. Is 4 axle end dump trailers ok for this opportunity?

Yes, our only requirement is that the loads must be covered during rainy or wet weather conditions. Our salt shed location can handle both end dump and live bottom trailers.
