

TOWN OF LUNENBURG  
DARES LAKE DAM & SPILLWAY UPGRADES  
CONTRACT NO. TOL2025004  
ADDENDUM NO. 3 (revised)

March 25, 2025

The following is additional information related to the Project:

**BEVEL GEAR LIFT INFORMATION**

A bevel gear lift unit has not been specified yet. Previous discussions with Mueller indicated the following information would be required by their engineering department to specify a bevel gear lift unit:

1. The weight of the proposed eel ramp; and
2. The peak flow over the proposed eel ramp.

The weight of the proposed eel ramp is estimated to be 370 kg and the peak flow of the eel ramp is an estimated 1.2 m<sup>3</sup>/s.

Any additional information regarding the eel ramp is available upon request and will be issued via addendum.

The sales representative for Mueller is Jeff Jensen ([jjensen@muellerwp.com](mailto:jjensen@muellerwp.com)). He is currently on vacation and will be returning to work on Monday March 21st. Please contact Jeff related to the bevel gear at that time.

**TO THE REQUEST FOR TENDER**

**SECTION 01 21 00 – INSTRUCTIONS TO TENDERERS**

**Page 4, delete subsection 5 and replace with the following:**

5. TENDER SUBMISSION
