

TOWN OF LUNENBURG

RFP TOL2025005

March 31, 2025

ADDENDUM #2 – Water Meter Supply & Install

Q: Can there be a stipulation for a contingency on pricing as the trade tariffs continue to escalate?

A: Tenderers are responsible to investigate and confirm that the Contract Price includes and covers all duties, and handling charges; transportation; and all other charges in place as of the date of submission of the Tender.

Q: Why does Lunenburg want to install a water meter in every residence?

A: The UARB has requested the Town pursue water metering for residential customers, and there are also benefits to the Water Utility.

Q: How fast would you like the complete project to be realized?

A: Schedule is up to the Proponent, but the Town notes that Project Timeline is a component of the Evaluation Criteria.

Q: In Nova Scotia, does the installation of new meters in houses needs to be done uniquely by certified plumbers?

A: With reference to the Town's Water Utility Regulations:

INSTALLATION AND REMOVAL OF METERS: Meters shall be installed and removed only by employees or duly authorized representatives of the Utility and no other person shall install, alter, change or remove a meter without the written permission of the Utility. The Town may request proof of competency for the Proponent's installation personnel.
